# TROOPS SEARCH FOR QUAKE DEAD

It is understood that the I W. Foss company comprises F. W. Foss Lee Foss, M. Foss and E. P. Paulsen. Fear That Many Were Killed When Houses Collapsed in Italian Shake. In speaking of the matter today A Johannsen said:

(Continued from Page 1)

"At the time it was under discussion the matter was referred by he in one to the bosses all over the county and left with them their considera ion. Originally the demand was twice as high as that which is now being en oread, but there was a compromise made at the request of the bosses by cutting the demand in half. Against even this demand the Foss company held out. There was nothing left for us to do but to enforce the rule which obtains with a her people engaged in the same business as the Foss corporation. We ordered the workmen out this morning and the order was respected immediately." vast one, embracing practically the whole of Southern Italy, as well as a portion of Tuscany and Venitia to the north. But the district where serious damage occurred only extends about fifty miles around Mount Vulture, which is an extinct volcane near the town of Calitri, in the province of Avcl'ine.

This region has suffered much in the past from earthquake shocks and in 1851 eight hundred persons were killed. The number of casualties resulting from the earthquake vesterday has not yet been ascertained. Some reports estimate the dead at fifty and the indured at several liurdred. It is feared many are buffed in the rrins of the house which were thrown down in Calitri, while great damage was done at other places, with unknown loss of lite.

TROOPS AT SCENE. Speaking on the same su sect John Striker, who represents the B y Counties District Council of Carpenter and Mulmen, said:

"Two weeks ago Richard Jamb, the business agent for the Build in Trades Council of Alameda county, and myself had our attention directed to the matter of wages peld by the Foss con pun. In order that provision may be made in the three high schools of the city for the graduates of the grammar departments who last week received their di-plomas, the board of education sought to determine the number of pupils that would enter the higher department in

Out of 628 diplomas issued by the board it was found that 427 of the recipients intended to pursue their eduation into the higher branches 204 were undecided, the majority being ratisfied that for the time being at least they would discontinue to follow other pursuits. Of the ambitious 427 who will enter

the three high schools, 162 have signified their intention of attending the Manual Training and Commercial High, 121 will attend the John C. Freemont High and 144 the Oakland High, leaving seven to s accounted for.

LEADS THE OTHERS.

According to statistics, the coming term will be the first time in the his-tory of the devertment that the Manual Training and Commercial High school, commonly known as the Polytechnic, has ed the others in the entering class en-olinient. This is attributed to the fact hat it is the intention of the board of education to erect a more suitable build education to erect a more suitable building to house a more complete and thorough equipment. The condition of the school in the past has not been such as to attract pupils, being overcrowded and lacking in pleasant environments. As the call for a bond issue is expected to be made within a short time, it is believed that within another year or two that the pupils will be able to benefit from the advantages of a new building. DEFIES UNITED STATES.

General Rivas practically defied the United States, declaring that he would disregard the proclamation issued from Washington on May 31 to the effect that the United States Government doried the right of either faction to seize American over ned vessels or property without consent of and recompense to the owners.

He warned Commander Hines that he would prevent by force, regardless of flag, any further vesses from entering the barbor. In response to this, the American commander immediately sent him the above mes age, which would mean the annihilation of the handful of Medriz trops now remaining in this neighborhood.

A critical situation has thus arisen which may involve the United States, but the American officers here are of the opinion that General Rivas will not attempt to make good his threat in an effort to collect cus oms duties. There are constant rumors of threats against the life of Thomas P.

### The Leona Heights Disaster Inquest.

The thorough and impartial monner in which the recent accident on the Leona Heights car line was investigated at the inquest held by Coroner Tisdale merits special praise. The inquiry was conducted in a way to elicit every essential fact and circumstance bearing on the lamentable incident, and the verdict undoubtedly represents a sound and just conclus on, based upon incontrovertible facts drawn out solely to get at the truth of the matter.

It is fortunate that the inquest was such a thorough and impartial investigation. It was what the public interests demanded, and what the exigencies of the occasion required. Such tragedies convey an important lesson both to public officials and to transportation corporations, but it is a lessor that might easily be obscured by a partial inquiry or by the inject on of confusing matters having no direct connection with the accide it and its immediate causes.

Fortunately Coroner Tisdale gr. sped the importance of the task before him and conducted the inquiry with admirable precision and directness. He brought out he fact - fully without letting irrelevant and extraneous matters creep into the record. His method did not permit of diversions or delays, and the result of the examination makes plain to the public just why and how the accident happened. Nothing was covered up, to fact obscured and no points left in dispute.

Both the Coroner and the jury are to be commended for performing a painful duty in so praises orthy a manner. They did not permit personal feeings or private considerations to interfere with the discharge of a function which I is a special importance because of legal and legislative action that is likely to result hereafter. Such accidents must be prevented if hu can wisdom can prevent them, but responsibility must first be fixed before effective prevention can be applied. Facts alone car octers ine responsibility. Hence Coroner Tisdale rendered the jublic a signal service by bringing out the facts in such a clean-cut manner while the accident still harrows the public mind, and while every ci cumstance was still fresh in the memory of all having any personal knowledge of what happened and the causes contributory to the collision.

The value of promotness, thoroughness, impartiality and directness in such inquities can hardly be overestimated. It is fortunate that Dr. Tisdale appreciate 1 it, at 1 conducted the inquiry solely with a view to ascertaining as spendily as possible just what occurred and fixing responsibility for the disaster. The significant bearing the inquest will have on future events gives it unusual importance, and for that reason the character of the investigation merits approbation and more than passing attention, because it was such a prompt, intelligent and coura geous discharge of a public duty.

## The Firecracker Nuisance Suppressed.

Santy and humanity have at 1.st prevailed over custom and a mock heroic sentimentality. NEW YORK, June 5-A man sitting

NEW YORK, June 5—A man sitting in a new at the Columbia theater last night shot himself in the right temple with a revolver while the principals and chorus were singing the last number of a burlesque, and died instantly. In his picket was found a letter addressed to the rolice and coroner, signed Charles Talbell, and giving his address as 568 Park venue.

The box which the suicide occupied is on a leve with the balcony at the left of the stage. The sound of the shot did not carry very far because of the din of the singers and orchestra. Men and women sitting near looked up frightened, but the performance continued without interruption, and, although many reached for their conts and hegan leaving the theater, there was no panic. Charles Talbert was a corset maker 35 years of age and married.

ALAMEDA, June 8—A report on the condition of the municipal offices in the Alaineda city ball was filed with the City Council last night by Certified Public Accountant F Broralcy Jensen. An investigation into the affairs of City Treasurer Oswald Lubback's office followed a \$570 shortage.

Treasurer Oswald Lubback's office fol-loved a \$570 shortage.

The report makes no specific mention of the shortage, but states that the methods of the City Treasurer's office are up-to-date, and that the accounts are in excellent condition.

THEIR REPORT. THEIR REPORT.

Following is the conclusion reached by the certified public accountant and his assistants.

the certifice public accountant and his assistants.

"We are glad to state that the city's accounting records are clerically in excellent condition. Thanks to the personal efforts of Colonel E. B. Bullock, they are based on certect principles of accounting embodied in an efficient system, taking care of the cast receipts and disburstments of the city's finances. The introduction by him of a combined "Demand and Warrant Form," by ricans of which the Auditor is enabled to retain the demand as a voucher for every disturbed warrant, is certainly an improvement which should be adopted by all runnicipalities and governmental fiscal cepartmer is, since it furnishes an important internal check in the nature of an unbroken chain of voucher records, norant internal check in the nature of an unbroken chain of voucher records, covering all transactions of disbursing funds. In a like manner are acting the brinted receipts for revenues to be collected by the various departments, on which there is set forth in type the amount of money a receipt is to represent, as fer instance the license blanks. the receipt blanks in the health depart-

CITY'S SYSTEM.

Of course, the system of accounting of jour city, like in most municipalities, and dishusements as its fundamental pripose, and does not fundah a balance shoct in the commercial sense, setting south in a compice manner the assets and liabilities. It is, therefore, unavoidable that certain revenues and liabilities are overlapping the fiscal periode, since under the cash and dishusement rrethout the cash for same is either coilected or paid out.

However, the plan upon which your system of accounts is built is the one in youge in the mijority of runnicipalities, and a chance to the established company.

ALAMEDA, June 8.—Councilman Fred Krumb attacked the East End service of the Oakland I raction Company last night at the council neeting. He declared that the company was running cars fitted with square instead of round wheels was operating cars over a shalky readbed and was giving in general a very unsatisfactory service. He had special reference to the branch loop from Park and San Jose to Santa Clara and High. He said that the car crews persistently and continually started their cars away from he functions when the connecting car is right at hand. He said the sane condition frequently arose at Santa Clara averue and Park street, the chief transfer of the fratemity. The convention is dated for September 17. and Park street, the chief transfor point of the city.

GRAND OFFICERS ARE NAMED FOR OFFICE

for Great Park for the Nation.

TAHOE TAVERN, June 8.- "The home TAHOE TAVERN, June 8.—The home at Colma for the aged members of the order was one of the main topics for consideration at the Grand Tarlor of Native Sons now in session here. The committee reported that there is no immediate necessity of establishing the home on a working basis.

"From our investigations," the report reads, "we are of the opinion that it will probably be at least five ears before there will be a sufficient rumber of members eligible and desiring dimission to make the establishment of he home a practical necessity.

ADMIRABLE SITE.

### ADMIRABLE SITE.

"The tract of land presenter to the Grand Parlor is admirably suit a to the purpose for which it is designed and we find that members of our order are generally well pleased with the prispect of having such an institution es abitshed. We believe that the most practical manor of maintaining this home when established, and maintaining and improving the lands, prior to tite esta dishment is by the levy of a per capita it by the Grand Parlor, though eventually the home can be largely self-sustai ting. We helieve that the most prudent and economical method of establishing this home will be to begin the improvement of the property at once and continue it home will be to begin the improvement of the property at once and continue it each year until the home is put into active operation. We suggest that the first year's appropriation be mide sufficiently large to enable the bound of grand officers to employ a competent landscape gardener and an engineer to make permanent ground plans for the buildings, drives, walks, orchans, vineyards, and gardens.

### FAVORS SMALL TAX.

To the end that this expense may be distributed so as to impose the bast possible burden upon the order, we recommend that a tax of ten cents per capita be levied at this and each subsecting session of the Grand Parlor as long as the same shall be required." ON LAKE TRIP.

Starting shortly after 9 o'clock this norming, upward of 250 delegates to the morning, upward of 250 delegate; to the Grand Parlor, Native Sons of the Golden West, embarked on a pleasure trip around Lake Tahoo. The transportation facilities on the lake were taxed to their utmost to carry this number of natives. The Grand Parlor took a recess resterday until temorrow so the trip could be made.

**ASSERTS CHEMIST WAS** NOT "STRONG" ENOUGH

Case at Issue Under Advisement.

BERKELEY, June 8 .- Superintendent of Schools F. F. Bunker defended himself last night from attacks made against him of injustice to W. H. Bryan, released as chemistry teacher at the high ter. His reply followed a statement to

Hryan's request for reinstatement was taken under consideration by the board. Bryan, who was represented by council, stated to the board that ne was appointed to his position July 15, 1909, coming here from the Palo Alto high school. He was given to understand, he admitted, that he was filling the pince of a man who was away, but declared that it was also understood he was to retain the position pending the return of the regular instructor. He was given more work, he alleged, than he had ever had before, and that even this was increased at the beginning of the present semester. No complaint had ever been made of his work by Superintendent Hunker, until May 19 when Bunker told him, he alleged, that his ability and perhlm, he alleged, that his ability and per-sonality did not fit him to continue in bis position and that he was not to be remained. Bryan concluded by saying that this summary notice was buriful to his reputation as a teacher, difficult as it was to explain away, and that it came so late in the term as to make it impossible for him to find another not possible for him to find another post-

Following argument by Bryan's council, Superintendent Bunker aderessed the Superintendent Bunker addressed the board, explaining his position. He said:
"It is my business, as superintendent of schools in Herkeley, to increase the efficiency of the schools by securing the best individual teachers available. That there was any agreement for the continuance of Mr. Bryan beyond a year, I emphatically deny, because I cannot tell when a new man comes to many thether ha is capable of being me. tell when a new man comes to me whether he is capable of heiping me maintain that efficiency or no. It is impossible to promise a new man anything and Mr. Bryan, considering his familiarity with matters of school work, ought to know this. If we take a risk, we certainly we do, in hiring a new teacher, it is no more than fair that the also take the risk of not being reappointed.

aso take the risk of not being reappointed.

"If we suppose that I had told Mr. higher four months before the end of the term that he was to be dismissed, I must immediately be evident that I would have judged him too quickly and there is a trial of really but five teaching nonths. My attitude has always been, it case not excepted, to defer to the set possible moment the passing of adjment on a new man, to give him any chance in the world. This cauton is due to an understanding of the uportance of saving in every way a cacher's reputation, which is his only took in trade.

### tock in trade. TRIED TO BE EASY.

I tried to make it very easy for Mr. I tried to make it very easy for Mr. I tried to make it very easy for Mr. I wan to quit when I had finally concluded that he was not 'strong' enough or his position. I suggested to him hat he might gracefully withdraw by titing it be understood he had taken to position only for a year as a substitute for the man who had left. I old him also that I would gladly recommend him to another place he might while. It must be seen, therefore, that I alever damage his reputation may ave suffered is due to his own initiative in giving his dismassa, the publicity of this heating."

# A REAL CURE FOR BLOOD DISEASE

burifier. We all realize that this disease is a specific blood infection of the most powerful nature, the virus of which so the roughly poisons the corpuscles of the rirculation that its symptoms are manifested over almost the entire body. First comes a tiny sore or pimple, then the mouth and throat ulcerate, the glands in the groin swell, the hair begins to fall out, skin diseases break out on the body. sores and ulcers appear, and ever the bores ache with rheumatic pains. It is reasonable to believe that in a blood pot on so powerful as this that only a blood purifier can have any permanent good effect. S. S. s. is the greatest of all blood purifiers; it goes into the circulation and by thoroughly cleansing the blood of every particle of the insidious virus makes a permanent and lasting cure of Contagious Blood Poison. It does not hide or cover up the disease in the system but it entirely removes the last trace of its destructive germs. If you are sufforing with this disease S. S. S. will cure you because it will cleanse your blood and enrich its health-promoting co-puscles. S. S. S. is made entirely of healing, cleansing roots, herbs and barks, and is a medicine so absolutely safe and certain in its results, that everyone may cure themselves at home, and be assured the cure will be permanent and lasting. Citshaw, that gent who plays basepall at second base with a big B for the Oiks, picked out one of Miler's prize sloots and slammed it into centerfield in a manner that did not cause the hindsome scorer any trouble but to put the result in the B. H. column. Wares, slaways on the job, dropped one in front of Berry and "Cutty" reached second. Willie Hogan reached first on a boot of McArdle, said boot sending "Cutty" to third. Then came the Cameron boy and he plucked one of the Miller shoots lute right field, scoring his team mate, and the total and that one run was plenty to win die game.

Industries.

BAKERSFIELD, June 8.—The (alt-fornia oil men will in all probability loin the American mining congress confer-ences. Meetings to this end have Leen ences. Meetings to this end have been held bete and in Les Angeles and San Francisco, and the belief is that mutual benefit will accrue from such action.

The mining men realize that the presence of the dil men in their membership will live them an enhanced prestige. To the dil men is offered the hope of a unified body through which they can act in emergencies similar to that presented. in emergencies similar to that presented by the Pickett bill.

Meetings will be held during the next few weeks at which the sentiment of the oil men will be sounded. At disputch from Bakersfield says

### ENTER AS A BODY.

"The plan is to have the oil men of the various districts of the San Josquir valley meet a representative delegation from Los Angeles some time in July under the auspices of the chamber of commerce. It is the purpose of this meeting to arrange some way by which the oil men may enter the American mining congress as a body.

"The American mining congress is made up at present of mining and coal

operators, as well as smelting men. With the addition of the oil men the alifed interests will have been harmonized. NEED OF ORGANIZATION.

"The lack of close organization an one the oil men was emphasized when iostile legislation was pending at Washington. The oil men had no central body with full authority to make the fight. Instead a few of the bolder struck out on their own account and waged the battle

'By the recent victory of the repre repaired opposition, the American mining on-action of the American mining on-gress in securing the passage of a bill through Congress providing for the es-tablishment of a federal bureau of mines, after a three years' fight against deter-poined opposition, the American mining congress has proved itself a powe congress has proved used a poly-shaping national legislation. With a lurr in of mines established at Washing-ton with a capable head, it is recognized that the mining congress will be still bet-ter fortified in recuesting reforms in leg-islation that has appealed with special e to the oil men.

# OIL MEN PROPOSE PICKETT MEASURE AS IT HAS BEEN **AMENDED**

Men Are Protected in the Change.

**WILL PASS CONGRESS DURING THIS WEEK** 

Amalgamation With the Ore Operators Will Hold Both to Locators Prior to September.

> SAN FRANCISCO, June 8 -Attorney A. . Weil, who accompanied the delegation of California oil men to Washington to protest against the Pickett bill in its original form, declares that a partial victory has been won in securing the elln nation of the more radical features

### AMENDED BILL.

T = amended bill as agreed upon reads as ollows:

House of Representatives of the United States of America in congiess assembled that the President mily at any time in his discretion temporarily withdraw from settlemint, location, sale or entry any of tie public lands of the United States and reserve the same for water power sites, irrigation, classification of lands or other public proposes to be specified in the orders of withdrawals, and such withdrawals and reservations shall reor by an act of congress;

Provided that the rights of any person who at the date of any order of withdrawal heretofore or Percafter made is a bona fide occupont or claimant of oil or gas beging lands and who at such date is in diligent prosecution of work leading to discovery of o'll or gas, shall not be affected or imprired by such order so long as so h occupant or claimant shall continue in such diligent prosecution of said work; Provided, that this act shall not

provided, that this act small not be construed as a tecognition, alridgment or entanglement of any neverted rights or claims initiated upon any lands after any withdrawal, of such lands made prior to the passage of this act. Provided, that all lands with-drawn under the provisions of this

act shall at all times be opened to exploration, discovers occura-tion and purchase under the mining lays of the United States, so far as the same apply to minerals other the same apply to minerals other then coal, oil, gas and phosphates. The Secretary of the Interior shall report all such withdrawals to congress at the beginning of its next cular session after the date of the withdrawals.

### STATUS OF CASE.

In summerizing what was done before on ress, Mr. Weil states: on ress, Mr. Weil states:
i'he situation regarding the public mineral lands at the time the
of men arrived at Washington was
statantially as follows:
The President on September 27,
1819, withdows procedure 27

1639, withdrew practically all oil laids from further entry. A bill known as the Pickett bill, ratifying the President's order and authorizthe President's order and authorizing future withdrawals, had passed it. House and gone to the Senate. The Senate committee on public laids had reported the Fickett bill with an amendment, which eliminated the clause ratifying past w therawals and merely authoriz-er future withdrawals.

future withdrawals.
The change authorizing future The change authorizing future withdrawals would, of course, not an elionate the difficulties of the Cilifornia off producers, except in the few isolated cases where a discovery of oll had been made after September 27 and prior to the new withdrawal, which was contemp' used to follow immediately upon the passing of the bill.

Had either the Pickett bill or the Senate substitute therefor become the law, all companies which have not actually made a discovery of ol. no matter how long they have been drilling, and irrespective of the expenditures made, would have let the land.

le t the land.

Through the energetic efforts of the California senators and repre-

illa California senators and repre-sentatives a hearing was at once provided for before the Senato com-mittee on public lands. It was felt that the facts had been presented as fully as possible, Senator Nelson, chairman of the Senator Smoot, chairman of the

S nate committee on public lands; S-nator Smoot, chairman of the subcommittee; Mondell, chairman of the House committee in public lands; Pickett, author of the Pickett Bill; the President, the directing general of the geological survey, the attorney general for the interior department and most of the members were ready, and thought the absolutely essential that bound it a drillers at the time of withdrawal should be allowed to per-

dawal should be allowed to per-fect theid duties, but a majority, with some notable exceptions, were country determined that locators after withdrawal should receive no

atter withdrawal should receive no chalderation.

The latter matter was the subficit of long controversy and discussion, and finally the parties named have agreed to an amendment protecting men who were at work on September 27, 1999, with a further provise that the rights enacted after September 27, 1999, alouid be neither recognized, a ridged or enlarged, thus leaving tiese locators in exactly the same position as though no legislation was passed. The extent of their rights will, therefore, depend entiely on the question whether or nake the order withdrawing the lends.

This amendment will be of impressurable benefit to the men who were working on September 27. For the first time in the history of the mining law the government

For the first time in the fistory of the mining law the government has recognized the rights of locations prior to discovery, and henceforward such operators will be free from any claim of jumpers, scrippers, etc.

There is no certainty that this bill will pass the House, if its present uncertain temper on the question of conservation continues.

It may be said, however, that

It may be said, however, that either the squitable rights of the operators will be protected, or no bill at all will pass at this session. E ther event would satisfy the oll-
